Graco Mobile Spray Rigs — Mobile Spray Rigs - Built tough for foam and coatings applications.

- Insulated for better ambient temperature control and better yields
- Because they're insulated, Graco Mobile Spray Rigs help control temperatures surrounding your ISO and resin materials. In cold weather, it's easier to get materials up to spray temperature. In warm weather, air conditioning helps prevent material overheating and expanding drums, and keeps humidity at acceptable levels. In short, by keeping materials at temperatures closer to manufacturers' recommendations, you have better control of the reaction between A and B materials, which leads to better results.

Insulation also:
- Acts as a sound barrier
- Adds structural integrity to the trailer
- Double I-beam construction with support studs on 16-inch centers for added durability
- DOUBLE axle rated for 14,000 lb (6,356 kg) or 16,000 lb (7,257 kg) GVWR (Gross Vehicle Weight Rating)
- Engineered to hold two or three sets of material, a generator, a compressor plus one or two proportioners
- Rugged design handles extreme job environments
- Backed by warranty
- Your trailer investment is backed with a 5-year limited warranty
- New box trucks are backed with a 5-year limited warranty
- Graco equipment is backed with the standard 1-year Graco warranty

Boost productivity with a dual proportioner layout in your mobile spray rig

Graco Mobile Spray Rigs

Designed for spraying. Built to last.
Graco offers a full line of mobile spray rigs, all built and equipped for the look at hand, and backed by warranty.

Graco Mobile Spray Rigs — insulated for better ambient temperature control and better yields

Because they’re insulated, Graco Mobile Spray Rigs help control temperature surrounding your ISO and resin materials. In cold weather, it’s easier to get materials up to spray temperature. In warm weather, air conditioning helps prevent material overheating and expanding drums, and keeps humidity at acceptable levels. In short, by keeping materials at temperatures closer to manufacturers’ recommendations, you have better control of the reaction between A and B materials, which leads to better results.

Insulation also:
- Acts as a sound barrier
- Adds structural integrity to the trailer

Built solid to support equipment and materials
- Double I-beam construction with support studs on 16-inch centers for added durability
- Double sole-rider rated at 14,000 lb (6,356 kg) or 16,000 lb (7,257 kg) GVWR (Gross Vehicle Weight Rating)
- Engineered to hold two or three sets of material, a generator, a compressor plus one or two proportioners
- Rugged design handles extreme job environments

Backed by warranty
- Your trailer investment is backed with a 5-year limited warranty
- New box trucks are backed with a 5-year limited warranty
- Graco equipment is backed with the standard 1-year Graco warranty

Boost productivity with a dual-proportioner layout in your mobile spray rig

About Graco

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in variety lubrication, commercial and industrial settings.

The company’s success is based on its unwaivering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technical field and the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing systems and accessories, Graco with proven application equipment for the construction industry. Graco’s ongoing investment in fluid management and control will continue to provide innovations solutions to a diverse global market.

Tag Along Trailer
- 20 ft (6 m) tag along trailer
- Holds two sets of material
- Outfitted with one proportioner
- Easy to pull with smaller trucks
- Ideal entry-level trailer
- Ample headroom: 8 ft (2.4 m) interior height
- Double-axis reducer for 14,000 lb GVWR

Gooseneck Trailer
- 28 ft (8.5 m) gooseneck trailer
- Holds three sets of material
- Can be outfitted with one or two proportioners
- Easy to maneuver
- For residential and commercial projects
- Ample headroom: 8 ft (2.4 m) interior height
- Double-aaxis reducer for 16,000 lb GVWR

Box Truck
- Choose 18 ft (5.4 m) or 20 to 28 ft (6 m to 8.5 m)
- Holds two or three sets of material
- Can be outfitted with one or two proportioners
- Easiest to maneuver
- Better for projects where parking space is limited
- Ample headroom: 7.5 ft (2.3 m) interior height
- Weight load dependent on selected truck size

Standard features
All Graco Mobile Spray Rigs include:
- Your choice of Graco proportioner(s) either hydraulic or electric
- Your choice of Graco spray gun
- 40 kW diesel generator
- Your choice of air equipment
  - Rotary screw compressor (40 cfm) integrated with generator saves floor space and reduces system ampere requirements
  - 5 hp Champion® compressor (17.5 cfm)
  - 5 hp Champion compressor (Vertical) (17.5 cfm)
  - 10 hp Champion compressor (35 cfm)
- All air systems include installation and plumbing, refrigerated air dryer, regulators, quick disconnects and correct sizing for application
- Heated hose - 2000 psi (138 bar, 13.8 MPa) or 3500 psi (241 bar, 24.1 MPa)
- Hose hatch - allows you to keep the main doors closed and maintain ambient temperature inside trailer
- Bogey wheels - offer skid protection to the back end of trailer
- Safety chains and electric breakaway brake system that applies brakes on your trailer if it comes loose from the hitch
- Proper ventilation. Engineered louver system keeps generator from overheating
- Color-coded drum restraints
- Insulated partition wall between utilities and cabin separates generator from proportioner - reducing noise during operation
- Electrical system with breaker panel
- Hose hanger - 410 ft (125 m) capacity
- 5/16 in (0.794 cm) plywood walls
- Double 3/4 in (1.9 cm) plywood flooring under generator (trailers only)
- Heavy-duty 8 in (20.3 cm) main beam construction (trailers only)
- Two ABC approved fire extinguishers
- First aid kit

Options
- Workbench
- Cabinets
- Counter lighting
- Feed pump system
- Built-in heater with thermostat
- Rooftop air conditioning unit
- Air dryer
- Machine recirculation system
- Gas recirculation system
- Drum mixer
- Drum mixer
- Maintech system for fresh air supply

Ask your Graco distributor to demonstrate the configurator tool for your next mobile spray rig.
Tag Along Trailer
- 20 ft (6 m) tag along trailer
- Holds two sets of material
- Outfitted with one proportioner
- Easy to pull with smaller trucks
- Ideal entry-level trailer
- Ample headroom: 8 ft (2.4 m) interior height
- Double-asis-beam for 14,000 lb GVWR

Gooseneck Trailer
- 28 ft (8.5 m) gooseneck trailer
- Holds three sets of material
- Can be outfitted with one or two proportioners
- Easy to maneuver
- For residential and commercial projects
- Ample headroom: 8 ft (2.4 m) interior height
- Double-asis-beam for 20,000 lb GVWR

Box Truck
- Choose 18 ft (5.4 m) or 20 ft (6 m) to 28 ft (8.5 m)
- Holds two or three sets of material
- Can be outfitted with one or two proportioners
- Easiest to maneuver
- Better for projects where parking space is limited
- Ample headroom: 7.5 ft (2.3 m) interior height
- Weight load dependent on selected truck size

Standard features
All Graco Mobile Spray Rigs Include:
- Your choice of Graco proportioner(s) either hydraulic or electric
- 40 kW diesel generator
- Your choice of air equipment
  - Rotary screw compressor (160 cfm) integrated with generator
    - 5 hp Champion compressor (17.5 cfm)
    - 5 hp Champion compressor (26 cfm) (17.5 cfm)
    - 10 hp Champion compressor (35 cfm)
- All air systems include installation and plumbing, refrigerated air dryer, regulators, quick disconnects and correct sizing for application
- Heated hose – 2000 psi (13.8 MPa) or 3500 psi (24.1 MPa)
- Hose hatch – allows you to keep the main doors closed and maintain ambient temperature inside trailer
- Safety chains and electric breakaway brake system that applies brakes on your trailer if it comes loose from the hitch
- Space for trailers only
- Prepare ventilation, Enclosed beaver system keeps generator from overheating
- Colored drum restraints
- Insulated partition wall between utilities and cabin separates generator from proportioner – reducing noise during operation
- Electrical system with breaker panel
- Hose hanger – 410 ft (125 m) capacity
- 5/16 in (0.794 cm) plywood walls
- Double-3/4 in (1.9 cm) plywood flooring under generator (trailers only)
- Heavy-duty lid in 20 ft (6.1 m) main beam construction (trailers only)
- Two ABC-approved fire extinguishers
- First aid kit

Options
- Workbench
- Cabinets
- Counter lighting
- Fixed pump system
- Bullhorn with thermostat
- Rooftop air conditioning unit
- Air dryer
- Machine recirculation system
- Salt recirculation system
- Drum mixer
- Drum mixer
- Manifold system for fresh air supply

Ask your Graco distributor to demonstrate the configurator tool for your next mobile spray rig.
